## BUSINESS OF THE PORT

Trade for the Year is Satisfactory and Encouraging.

Banking, Post Office Receipts, Real Estate Sales, Exports and Imports, Shipping, Coal Receipts, Cotton Trade, Lumber Manufacture.

The year just passed has been one of the most prosperous in the history of this port. It has been a period of large real estate transactions and business activity.

The merchants report that '98 was a good year, and shows an increase in all the various lines of trade.

Norfolk traveling men have gone into new fields and have successfully met the prices of larger markets of the North, East and West.

The statistician of the Board of Trade has kept accurate records of sales and shipments, and then has made a completed list of the goods of the city on the Atlantic coast with "anything like" the same population, has made more substantial gains.

**BANKING.**

The total clearings from the Norfolk Banking Association will reach \$50,000,000, balances about \$7,500,000; surplus and profits for the year ending December 31st, 1898, were \$372,535. The deposits will amount to considerably over \$6,000,000; loans about \$5,000,000.

**POSTOFFICE RECEIPTS.**

The next best index to the financial condition of the people and their business activity is the postoffice receipts. The Virginian-Pilot is informed that the postoffice receipts this year will reach at least \$100,000, large gains over 1897.

**REAL ESTATE SALES.**

There has been activity in real estate transactions and building. The year 1897 will be remembered as the year in which two of the handsomest public buildings were completed—the citizens' Bank and the Monticello Hotel, and preliminary work begun for the erection of the new postoffice.

The real estate sales for the city of Norfolk amount to \$1,848,305; for Norfolk county, \$1,123,756, a total of \$2,972,061. Added to this \$25,400 for the city of Portsmouth, and there is a grand total of \$3,020,551. There was no unjustifiable excitement in real estate sales. The prices were based on substantial values.

**EXPORTS AND IMPORTS.**

The exports for the eleven months to November 30th were \$11,822,270, as reported from the custom house. As the records of the collector have not been made up for the last month of 1897, actual figures cannot be obtained, but, placing the shipments for this month, which was one of the best months of the year, at \$1,250,000, the value of the total shipments will be \$13,072,270, a slight decline from last year's transactions, due to the obstruction of transportation by the Spanish-American war.

The imports will amount to \$200,000. This is a slight increase on the figures of last year.

**VESSELS ENTERED AND CLEARED.**

During the year the vessels which entered this port from foreign ports numbered 131, cleared 519. Total tonnage of vessels cleared, 841,615; total tonnage of vessels that entered, 217,053.

Of the vessels engaged in the coastwise trade, 2,629 entered this port and 1,795 cleared.

**COAL RECEIPTS.**

The receipts of coal over the Norfolk and Western railroad delivered at Lambert's Point for 11 months ending November 30, were 1,821,310 tons. The statement for the month of December has not been made up. When it is completed it will be found that the total receipts will be over 2,000,000 tons.

This is a very satisfactory gain over the year of 1897.

The Flat Top fields have furnished thousands of tons to the United States for the use of war vessels, and it is believed that the high standing of the fuel for steam navigation will cause it to be used in greater quantities by the fighting ships.

When Admiral Schley overhauled the Spanish fleet off Santiago he was burning coal supplied from the port of Norfolk. An order has been issued instructing the washing to coal at Norfolk when it is possible to do so.

The following is a statement of the receipts and shipments of cotton at Norfolk for the four months ending December 31st, 1898. These figures are furnished by Mr. Norman Bell, of the Cotton Exchange, and are reliable:

Bales	5,498
Net receipts from September 1st to December 31st	438,465
Coastwise, overland and inland shipments	517,121
Stock on hand	60,472
The receipts are larger than last year by 15,935 bales.	
The export fall short of the transactions of last year by 54,472 bales.	
The stock on hand is less than last year by 16,124 bales.	

**LUMBER TRADE.**

This city is one of the largest lumber manufacturing centres on the Atlantic coast. There are said to be more than sixty mills represented in Norfolk by agents or shippers.

The business is one of Norfolk's most substantial industries, employing thousands of laborers and requiring millions of dollars annually.

The general offices of the North Carolina Pine Association are here and their mills produce about 800,000,000 feet of lumber yearly.

At a recent meeting of the association it was reported by the secretary that the outlook for future operations were never brighter. Last year there were about 5,000,000 feet of lumber at each of the mills connected with the association at the close of the season; at the present time there is not a foot of unsold lumber at any of the mills.

The lumbermen expect great activity during the remainder of the winter and the early spring months. Notwithstanding there is an increased demand, prices have not been advanced.

The shipments of lumber from this port for ten months of the past year were as follows:

Logs, feet	112,547,000
Piling, feet	852,684
Railroad ties	92,659
Shingles	28,536,275
Staves	8,432,290

Norfolk has enjoyed valuable lumber trade with the West Indies for more than fifty years, and with the control of Cuba and Porto Rico by the United States Government, the business is expected to develop rapidly.

**OYSTERS AND FISH.**

This industry employs about 20,000 people in Eastern Virginia, and not less than 5,000 in the city of Norfolk and vicinity.

The packing houses of this market ship goods as far West as the Mississippi river, South to the Gulf and throughout New England and the Middle States. Norfolk oysters are unsurpassed in keeping qualities and flavor. The goods are shipped in cans and in favorable weather reach their destination almost as fresh as when they came from the waters of the Chesapeake. The business is worth about \$3,000,000 annually. There is a prospect for a better season than the last, and should the weather be auspicious the packers expect to make money.

There are no better fishing grounds on the Atlantic coast than those of Virginia. The catch was large last year and the volume of business showed a satisfactory increase over the previous year. Goods found ready sale in Northern markets.

The merchants of Norfolk are encouraged because in all departments of business the movement has been forward, steady and reliable.

At the head of this company is Bessie Bonnell, the idol of the English vaudeville, and more lately of the American, who will be seen in her latest act, that is a melody of wit and song gracefully carried off by the charming little comedienne, Gus Williams is a member of the organization, and to regular theatregoers he needs no introduction, for his ever ready Teutonic wit has made him a star in the dramatic profession, and a favorite throughout this country. Among the other members are, Seely and West, a widely known musical team; Barbara Pryne, a niece of President McKinley, who is a highly cultured singer; Alreada, the sensational equilibrist, who has made a national reputation with her act; Harry and Jenny Kramer, a team of expert bicycle riders that have secured their turn with a great deal of clean comedy, and Arnum and Wagner, a funny pair of Dutchmen that make a merry half hour for the audience.

**1899 Entered in.**

The old year of 1898 departed last night in a storm of wind and rain, and the new year of 1899 was ushered in mild pealing bells, shrieking whistles, the popping of fire-crackers and the music of bugles, cornets, triangles and human voices. There was some dancing in the streets, but the storm added wonderfully in harmonizing them. It has been for the unfavorable weather the new year would have received a great ovation.

**W. H. Enter Upon His Duties.**

Rev. J. T. Riddick, of North Carolina, assumes the pastorate of the Glenmorton and Deep Creek Baptist Churches to-day. Before Mr. Riddick received and accepted the call to these churches, Rev. E. E. Dudley, of the Central Avenue Baptist Church, of Atlantic City, preached at Glenmorton.
